diamondfulfilment

“ We love working with local businesses and **diamond** gives us the personal touch we love, and always the service of a large logistics company. Top Notch! ”

case study

Our client: An online retailer selling funky helicopters.

Their challenge: Their business can run from their home office **bar** the import of pallets of helicopters and sending orders through the UK and internationally from their online purchasers. They want to specialise in buying and marketing their product **not** running a warehouse and pick and pack function.

Our solution: To provide storage, pick, pack and despatch management all rolled into one.

result...
